Vinegar and Baking Soda Natural Drain Cleaner Recipe

$\frac{1}{2}$ cup of white vinegar
 $\frac{3}{4}$ cup of baking soda

Pour the baking soda down the drain and allow it to settle. Pour the white vinegar into the pipe. Allow mixture to bubble and work for 30 minutes. Pour hot water down the drain to rinse. Repeat if needed.

Hazardous Waste Collection

Rid your home of toxins properly through a local household hazardous waste collection event in your area or you may take them directly to the Lorain County Solid Waste Management District Collection Center, located at 540 S. Abbe Rd. in Elyria.
